## NEWS THIS WEEK

### Owlacombe's Residential

‘On 5th September, Owlacombe went to the Dartmoor Activity Centre. We were there for two days and one night. We had lots of fun doing lots of activities such as building a bridge, water games, a game like ‘40 40 in’ but with plastic recycling! We also had great meals there.

On Friday, we did litter picking on Dartmoor. We want to say a very big thank you to the Dartmoor Activity Centre and all the teachers.’

By Imogen and Anna Yr6

[www.dartmooractivitycentre.com](http://www.dartmooractivitycentre.com)

A fantastic group adventure venue!

### Honeywell Savannah animals grazing on the grass!

‘I made an ostrich. I used a tube and put some eyes on it. I made a bath for it. It looked good.’

Isla

‘I made an elephant. I used three little boxes and two Pringle boxes for a long trunk.’

Tom  
‘I got some lollipop sticks and cut them up and put them on a tube, it was for a main. I was shown how to make a hole. It was a good lion.’

### Woodhouse Pre-School

The children in Woodhouse have settled back into pre-school amazingly well since their long break. We have been exploring our environment and playing with sticky playdough. We have had lots of fun playing with the big children at play time and using the big play equipment.

### Middlecott

I am really pleased to report that everyone has settled really well into Middlecott and we are having lots of fun in class. Last week we had a go at an activity called Mobius Strips, where we had to turn a strip of paper into a circle and find out how many sides it had. It was a bit tricky but we all managed it and then we made a giant strip as a whole class! Today we smashed biscuits and squished jelly as part of our science topic on materials. Do you think shaving foam is solid, liquid or gas?

### Outdoor Learning

A reminder that children do not wear school uniform on Mondays - only suitable outdoor clothes. This coming Monday we will have an activity with water so waterproof trousers are essential otherwise the children will get soaked! Wool gloves do get very wet so consider other types of gloves for keeping hands warm.

I am looking for unwanted yoga mats, small hand weights and exercise bands if anyone has any sitting at home.

Also, I always want corks, tools, wood, craft items, beads, shells, feathers string, wire and anything else that might be useful. Thank you, Mrs Adams
